

Learning Management System 2017

Blanket Purchase Order (BPO) Number: F50B7400022

The objective of this Contract, effective May 15, 2017 through February 22, 2019, is to enable State agencies to procure Cornerstone onDemand SaaS Cloud- Multi-tenant LMS enterprise license modules in a timely and economical manner. Through Cornerstone OnDemand, Inc, the State will have a flexible means of obtaining licenses quickly, efficiently, and cost effectively by issuing a Task Order specific to its needs.

[See ADPICS Procedures Below]

Learning Management System - ADPICS Procedures

The following outlines the procedures for Learning Management System Enterprise software available through the Learning Management System Contract. Agencies should complete a Task Order.

All Executive Branch agencies are required to create a reference purchase order release in State ADPICS against blanket purchase order (BPO) #F50B7400022.

Agencies may change the purchasing type or use the default. A specific purchasing type is not required since the commodity codes are linked to DoIT by commodity approval processing.

The purchase order will automatically be routed via commodity approval processing to DoIT Procurement for review in ADPICS mailbox 060P1, level 800.

Agencies can monitor the status of the ADPICS document through ADPICS via the active document screen (PCHL 9220) or archive screen (PCHL 9230). In most cases, you will receive an email from DoIT indicating the updated document status.

Agencies should follow-up with DoIT Procurement directly concerning the status of the purchase as well as subsequent invoice or service concerns.

If you have questions or concerns, please contact:
